

Matching your giving could double your impact

These are some companies that have matched gifts from their employees. This may be a way you could double (sometime more!) your giving. This list isn't nearly complete or necessarily current. Have you asked your place of work whether they would match your donations to this ministry? Campus Crusade for Christ is a 501(c)(3) non-profit organization.

Please note that page 4 has a second alphabetical list of companies. So if you don't see your company on the first list, check the second.

Thank you for looking into this. This could be such a great help toward our work.
